Rahim Yar Khan, Pakistan · Open to Remote / Relocation

PROFESSIONAL SUMMARY

T-shaped Full Stack Engineer with 4+ years of hands-on production experience delivering complete digital products — from responsive web applications to cross-platform mobile apps — using modern JavaScript and Dart ecosystems. Equal proficiency in MERN stack (React.js, Node.js, Express, MongoDB) and mobile development (React Native, Flutter). Pioneering AI-augmented development practices: LLM API integration, on-device ML, intelligent UI/UX, and RAG-powered backend systems. Trusted by global clients in Singapore, the US, and Pakistan for scalable, maintainable, production-ready code.

TECHNICAL EXPERTISE

Web Frontend	React.js, Next.js 14, TypeScript, JavaScript ES6+, Tailwind CSS, Shadcn/UI, HTML5, CSS3
Web Backend	Node.js, Express.js, RESTful APIs, GraphQL, WebSockets, Socket.io, JWT, OAuth 2.0
Mobile	React Native (CLI & Expo), Flutter — iOS & Android production deployment, Native Modules, JSI
AI / ML 2026	OpenAI GPT-4o, Gemini API, LangChain.js, RAG pipelines, TensorFlow Lite, Core ML, on-device inference, vector databases (Pinecone), intelligent features
Databases	MongoDB (Mongoose), PostgreSQL, SQLite, Redis, Firebase Firestore, Hive, AsyncStorage
Cloud / DevOps	AWS (S3, EC2, Lambda), Firebase, Vercel, Docker, GitHub Actions CI/CD, Fastlane, TestFlight, Play Console
State Mgmt	Redux Toolkit, Zustand, React Query, Context API, GetX, Provider, BLoC/Cubit
Architecture	Clean Architecture, MVVM, MVC, SOLID, Microservices, Domain-Driven Design, Component-Driven
Testing & QA	Jest, React Testing Library, Widget Testing, Detox, Supertest, Performance Profiling, Sentry
Tools	Git, GitHub, Jira, Figma-to-Code, Postman, Swagger, VS Code, Linux, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Full Stack Engineer · Kairos Business Solutions, Singapore
(Remote)

Jul 2023 – Present

React Native · Flutter · Node.js · Epicor ERP

- Architected and shipped cross-platform mobile and web solutions for enterprise Epicor ERP clients, used daily by thousands of users across 3 continents.
- Integrated AI-powered features — GPT-4o chatbots, LLM-driven search, automated analytics reports — boosting client product value and user retention by 35%.
- Delivered 40% performance improvement through optimized rendering, Redis caching, code splitting, and virtualized data rendering on both web and mobile platforms.
- Bridged React Native JavaScript and native modules for hardware integrations (barcode scanners, label printers) using JSI architecture.
- Managed complete CI/CD pipelines via Fastlane + GitHub Actions, automating App Store, Google Play, and web deployments — zero-downtime, every sprint.

- Implemented real-time features across web (Socket.io) and mobile (Firebase Firestore) platforms, including live order tracking, dashboards, and push notifications.

MERN Stack Developer · Mercury Sols, Rahim Yar Khan Jul 2023 – Present
Pakistan | On-site

- Designed and developed full-stack web applications using React.js + Node.js + MongoDB for enterprise clients, with a focus on maintainability and scalability.
- Refactored legacy codebases to modern MERN architecture, improving stability and reducing bug rate by 60% for three enterprise clients.

Full Stack Developer (Web & Mobile) · Elite Commerce Feb 2020 – Jun 2023
Technologies / Fiverr
Remote | Global Clients

- Delivered 20+ production web and mobile applications (MERN + Flutter/React Native) for global clients in e-commerce, SaaS, and social platform sectors.
- Built offline-first mobile experiences with SQLite, AsyncStorage, and Hive; built full-featured web apps with Next.js SSR/SSG for SEO-critical clients.
- Created reusable React component and Flutter widget libraries following design systems, cutting development time by 30% across projects.
- Consistently earned 5-star reviews for quality delivery, clear communication, and thorough documentation.

SIGNATURE PROJECTS

- Selfie Street — Cross-Platform Social App (100K+ Downloads)** *React Native / Flutter / Firebase / TensorFlow Lite*
- Multi-platform social photo-sharing app with AI-powered image filters (TensorFlow Lite), real-time feeds, camera integration, push notifications, and social features. 100,000+ global downloads, 4.6★ rating across App Store and Google Play.
- Kairos OMS — Restaurant & Order Management** *React Native + Next.js / Epicor ERP / Firebase*
- Dual-platform order management system (mobile app + web dashboard) integrated with Epicor ERP. Improved operational efficiency by 40%. Features: real-time orders, kitchen display, role-based access, PDF reports, analytics.
- Yaadman — Real-Time Delivery Platform** *Flutter / GetX / React.js / Google Maps / WebSockets*
- Delivery tracking platform with Flutter customer app, React.js driver dashboard, and Node.js backend. Live GPS tracking, optimized routing, ETA calculation, and push notifications. Improved delivery speed by 25%.
- AI-Powered ERP Dashboard** *React.js / Node.js / OpenAI API / LangChain.js / RAG*
- Web dashboard featuring an AI assistant powered by GPT-4o with company data RAG pipeline (Pinecone vector DB). Users query business data in natural language. Reduced data retrieval time by 50% for reporting teams.
- Fleet Management System** *React Native / React.js / Node.js / MongoDB / Google Maps*
- Cross-platform fleet tracker with geo-fencing, AI route optimization, live alerts, and an admin web panel. Integrated Google Maps API for route rendering and Socket.io for real-time location broadcasting.

EDUCATION

Bachelor of Science — Computer Science | KFUEIT, Rahim Yar Khan 2017 – 2021

IMPACT AT A GLANCE

100K+ App Downloads	40% Perf. Improvement	25+ Apps Shipped	4+ Yrs Full Stack Experience
